

Switchboards

Classifications & Ratings:

1600-4000 Amps, UL 891 Listed, NEMA 1, NEMA 3R, NEMA 4, NEMA 4X Enclosures

Integrated Circuit Solutions offers switchboards for 1600-4000 amps, UL 891 listed, in NEMA 1, NEMA 3R, NEMA 4, and NEMA 4X enclosures, meeting diverse power distribution needs.

1600-4000 Amp Switchboards: Handle high current loads, providing reliable power distribution with circuit breakers or fusible switches.

UL 891 Listed: Ensure compliance with industry standards for safety and performance.

NEMA Enclosures

NEMA Classifications:

- » **NEMA 1:** Indoor protection against dust and light.
- » **NEMA 3R:** Outdoor protection against rain and ice.
- » **NEMA 4:** Indoor/outdoor protection against dust and water.
- » **NEMA 4X:** Corrosive environment protection.

Key Features

- » High-quality construction for durability and reliability.
- » Available in various configurations to suit different applications.
- » Easy installation and maintenance.
- » High-performance components for reliable operation.
- » Compliance with industry standards and regulations.

Applications

- » Industrial processes and manufacturing
- » Commercial buildings and complexes
- » Residential buildings and complexes
- » Critical infrastructure
- » Renewable energy systems

Benefits

Integrated Circuit Solutions' switchboards offer dependable performance and protection for your power distribution systems. Our products are designed to meet the highest standards of quality and reliability, ensuring safe and efficient operation in even the most demanding environments.
